A LAD WITH A LONG REACH

MANAGER LIPE IN A QUANDARY

Will Be Difficult to Get Man for Temporary Position on Second Base.

Manager Lipe is still on the hunt for a second baseman and a shortstop, the only two places now unfilled on the team. Reeve's decision not to return has put him in a quandary, but he has singled out a good man for the place, and every effort will be made to land him, though it will cost money to make the catch. None of the good players are running loose in the country now. Those who are still on the outside looking in are not the men Richmond or any other good, fast club wants.

It may be that if one fast player can be procured, second-base will be filled by a utility man and the new corner put at short. Then Sieble will take his former position as soon as he comes. To get a man who will play second only temporarily, while Sieble is absent, will be rather difficult, for no player will want a berth which is to be his for so short a time. So the best way out of the difficulty seems to be to place a utility man on the middle sack, and relieve him as soon as Sieble arrives.

The club is still lacking two umpires, though Secretary Gregory has been trying to find two suitable men for a long time. He has his eyes on two, and if they are found to be desirable contracts will be sent them.

Athletic Association of University to Give Attention to Basketball.

[Special to The Times-Dispatch.] CHARLOTTEVILLE, Va., March 2.—Encouraged at the showing made by its basketball team during its brief existence of seven weeks, the Athletic Association of the University of Virginia will take up the game in earnest next session, and give to the sport something of the same attention that is accorded that branch of athletics in the larger colleges of the East.

Although the team has played the final game on its schedule, it is the intention of the Athletic Association, under the direction of athletics, to have the members of the squad out for practice three times each week until warm weather sets in. Next fall the members of the team and all who desire to try for it will be called out by October 1st, and a schedule of games with "prep" schools arranged for the fall, with possibly either a Southern or Western trip during the Christmas holidays, and a schedule arranged for the winter and early spring among the colleges of Virginia, who will be asked to co-operate in forming a league, each institution to play two games with each other. These, and some outside games, mixed in, will make a good, long season's work, and will do a great deal toward developing a fast, heady team and arousing move interest in the game at Virginia, and in the different colleges throughout the State.

Although two members of this year's quintet had never played the game before, yet the team, work of the five during the first half of the season and the playing of Hall and Ashby in the past few weeks gives good promise for the future.

TRAINING FOR THE GEORGETOWN MEET

Spiders' Track Team to Compete in Big Race Saturday Night.

Richmond College track members are straining every nerve to put themselves in the best possible shape for the Georgetown University meet in Washington next Saturday night, when they will compete in a three-corner relay race among Richmond College, Johns Hopkins and the Georgetown Reserves.

In the Federal meet held in Washington a few weeks ago the Spiders won from the Reserves after a remarkable race, and they expect to do as well again.

The five men who will go are Captain Louthan, Bristow, Meek, McGee and Waite. Louthan, Bristow and Waite will be three of the runners, and the fourth position will be contested for by the other two, both of whom have already appeared on the track in match races.

Has Fine Reputation. Virginia's track team is also hard at work, for it has a splendid reputation to uphold, having won the Federal meet, tied with Central High School for the George Washington meet, and won the Baltimore meet ten points ahead of second place holders—Johns Hopkins, who made eleven points.

Virginia came third, with ten points, thus showing the splendid work done by the Virginians.

In the coming meet Virginia is to run a relay race with Georgetown for the championship of the South, and the greatest interest in this race is being manifested. The odds would appear now to be in favor of the visiting team, but Georgetown has always held a good reputation in track athletics, and they will probably give Virginia the hardest race of the season. Virginia's men will be the incomparable Rector, who in the Baltimore meet, broke the world's indoor record for a hundred yards, making it in ten seconds flat; Goodwin, Waples and Thurlow.

Georgetown's meet will be featured by six relay races, all of which are for championships. Columbia and Cornell will run in a two-mile relay for the championship of the United States for this distance. Wesleyan and Fordham will compete for the championship in a mile race. Wesleyan has defeated all comers so far, but in the New Yorkers she will find a foe worthy of her steel.

Maryland will be decided in the relay between M. A. C. Washington College and Catholic University. None of the races, however, will be observed with more interest than those in which the two Virginia teams will appear. The fifteen men will go from the university to compete in other events, as well as in the relay, and a large crowd of enthusiasts will probably go with the team. Richmond College also expects to have a coterie of friends with the team.

Wise Talks by the Office Boy.

I heard a fellow say that "time works wonders." I guess every one could if they worked 24 hours a day and Sunday, like Time does. It's a long time since I heard any of that sort—mate talk they started in New York about three months ago. I bet some Down East shoe factory got next to that, like they did to "Sorosis," and swiped the whole lot, and I tell you some of those New England shoemakers are enterprising. Take the people who make our \$3.50 shoes, for example. Soul-mates is something everybody wants when they go to the shoemakers. A pair of shoes might be ever so well made, but if the uppers have no soul, they're not going to be of much account. Some soles are made of solid oak tanned leather, and will wear like old hickory, while others are the kind that get into the divorce courts before their time. The average citizen of this country wears out four pairs of those every year, but possibly he might get along with three pairs if they were bought at this store. All our shoes are soul-mates from the time they leave the factory.
